Hi Dena,

Attached is an example of an attainment date extension request letter that addresses requirements of Section 181(a)(5)(A) and (B). I specifically wanted to point out the language used regarding the state complying with requirements pertaining to the area in the applicable ozone implementation plan to satisfy Section 181(a)(5)(A).

Could you please give me a ballpark estimate of when you are planning to submit your extension request letter to EPA (i.e. with the exceptional events packages or sometime after). Additionally, who will be signing the letter? We are trying to coordinate timing of your request with the national notice for bump-ups and extensions.
